RUCIRASATTI NARISWANA

Semarang, Indonesia | rcirasatti@gmail.com | linkedin.com/in/rucirasatti | rcirasatti.github.io

PROFESSIONAL SUMMARY

Computer Engineering Technology graduate (Politeknik Negeri Semarang, GPA 3.91/4.00) with 1+ year of experience in web development (Laravel, React) and data analysis and machine learning (Python). Built institutional portals, an ERP system, and prediction models on real data.

WORK EXPERIENCE

Web Developer & Data Analyst, CV. OmahIoT, Semarang — Jan 2026 - Present

- Main contributor to Laravel 11 portals and CMS for Politeknik Negeri Semarang: the central portal (live at polines.ac.id), plus SPMB admissions, a bilingual UPA TIK site, and five department websites in development.
- Implemented a token-based REST API that syncs news, agenda, and announcements from department CMSs to the central portal with an admin approval workflow.
- Built a microcredential course platform (Laravel): registration and checkout, progress dashboard, and certificates with public verification.
- Processed courier shipment datasets and developed a model to predict delivery time (about 98.6% of predictions within 1 day); cleaned field and cost data for FTTH route optimization.

Data Science Facilitator, Coding Camp powered by DBS Foundation, Remote — Feb 2026 - Jul 2026

- Guided a class of about 20 learners through 16 weekly consultation sessions (4.90/5.00 satisfaction) and assisted 14 instructor-led training sessions (4.64/5.00); program graduation rate 88%.

Software Developer Intern, CV. OmahIoT, Semarang — Aug 2025 - Dec 2025

- Built a web-based ERP for project management (Laravel 11): projects, budgets, quotations, inventory, suppliers, and tasks; deployed to production.
- Built the first OmahIoT company profile website (React, Vite) and its Laravel CMS; co-built the Karang Taruna Batursari website and CMS (karangtarunabatursari.com).
- Analyzed rainfall and flood sensor data in Python: cleaning, outlier handling, time-series charts, and correlation analysis.

Machine Learning Engineer Cohort, Coding Camp powered by DBS Foundation, Remote — Feb 2025 - Jul 2025

- Graduated with an average score of 93.2/100 across 936 training hours.
- Capstone GrowSmart (team project): built the machine learning component, training a neural network that classifies child stunting risk (98.75% accuracy).

Web Programming Intern, Kazuya Media Indonesia, Ponorogo — Jan 2021 - May 2021

- Built CRUD applications with CodeIgniter 3 (MVC) and Knockout.js (MVVM) on MySQL; converted Photoshop and Figma designs into responsive Bootstrap pages.

PROJECTS & PUBLICATIONS

- **Thesis, Intelligent Cost Estimation for ERP (2026):** built an Owner Estimate Cost (OEC) estimation feature for a project-management ERP. Compared 7 algorithms (Linear Regression, SVR, Ridge, Random Forest, XGBoost, ANN, Moving Average) on 110 real transactions, ranked by Borda Count. Segmented Linear Regression was selected (R-squared 0.77, MAPE 10.7%) and integrated into Laravel with 112 ms inference latency.
- **Publications:** co-authored "Smart Water Quality Monitoring with IoT and AI: An XGBoost Approach to Household Water Suitability," Journal of Scientech Research and Development, Vol. 6 No. 2 (2025); and "Information Retrieval Related to Information Regarding Covid-19 Using Transformers Architecture," Jurnal Teknik Informatika (JUTIF), Vol. 6 No. 2 (2025).

TECHNICAL SKILLS

Web, Backend & Mobile: Laravel 11, PHP, React, TypeScript, JavaScript, Vite, Tailwind CSS, Bootstrap, REST API, MySQL, Odoo, Flutter, Figma

Data & ML: Python, SQL, Pandas, NumPy, Scikit-learn, TensorFlow/Keras, XGBoost, Matplotlib/Seaborn, Streamlit; data cleaning, EDA, ETL, time-series analysis

Tools & Others: Git, GitHub, Postman, MikroTik (MTCNA), IoT data, database design

EDUCATION

Politeknik Negeri Semarang — Aug 2022 - Aug 2026

Bachelor of Applied Science in Computer Engineering Technology, GPA 3.91/4.00

- Co-creator of a registered copyright (HKI No. 000540382, 2023): deep learning semantic text and image search engine prototype for COVID-19 information.

SMK Negeri 1 Jenangan, Software Engineering, Competency Test: Very Competent — Jul 2019 - Jun 2022

CERTIFICATIONS

- **Certifications:** MikroTik Certified Network Associate (MTCNA, 2026) | Oracle Academy Database Design (2023) | Dicoding: Applied Machine Learning, Data Analysis with Python, Cloud & Gen AI on AWS (2026)
- **Language:** TOEIC Listening & Reading 505 (2025)

ORGANIZATIONAL EXPERIENCE

- BEM Polines (Student Executive Board), Deputy of Interests and Talents (2023-2024); chaired the "RuPaWan" painting exhibition.
